

To Whom It May Concern:

I am writing in concern of losing my favorite radio station which happens to be on a FM translator service and could be replaced by LPFM which would cease service to the FM translator. I have listened to 105.5 for many years and it has become part of my daily life. K-LOVE radio is a wholesome, clean, (no fowl language or innuendos) family friendly radio station. I am happy that there is a radio station that I can honestly recommend to my children, grandchildren and friends for inspiration and honest listening pleasure. I urge you not to have the LPFM stations take priority over the FM translators. I believe 105.5, 89.1 and 100.9 are shining lights giving hope and encouragement to millions of people across the United States. There have been hundreds who have shared how K-LOVE has been there in time of need. There will be thousands more who need to hear this radio station. Thank you for taking this into consideration and to truly look at the impact K-LOVE has been and will continue to be to many across our beautiful country. God bless you!
